

All-in-1 X-Pro

In reef aquaria, corals, calciferous algae, tridacna, etc... secrete lime. All-in-One X-Pro replaces everything that has been secreted from marine life, needed for their synthesis.

Calcium, magnesium, strontium & barium are mixed in an optimum proportion and the carbonate hardness / alkalinity is evenly raised.

User Instructions : The optimum Ca value lies at 420 mg/L with a KH of 6-8°. 1 dosing cup (15 ml) = 487 mg Ca. Add daily 35 ml per ± 100 L Water. Distribute the All-in-One X-Pro at the outlet of the pump, preferably in the morning. Shake well before use.

Safety measures : Keep out of reach of children. In case of direct contact with skin or clothes, rinse immediately.
