

# Aqua San

Aqua-San transforms tapwater immediately to biotope aquarium water suitable for fish and plant. Neutralizes heavy metals and chlorine.

Protects the mucus, adds natural substances to the water, anti-stress, clears the water.

## Use:

in case of a newly set up aquarium, partial water change or addition of new fish : 3 ml per 10 L water.

## Safety measures :

Do not exceed the appropriate dose rates.  
Keep out of reach of children.
