

Bio-Bacter 2 in 1

Bio-Bacter 2 in 1 formula contains billions of heterotrophe bacteria with a dual function :

- A) removes rapidly ammonium/ammonia/nitrite.
- B) removes organic waste, sludge, prevents algae.

Ideal for newly installed aquariums, activates all filters and their substrates. Aquarium or filter start: 0.35 fl. oz per 4.4 gal. 1 x weekly for 4 weeks. Afterwards, reduce the dose to half (1 x weekly = 0.35 fl. oz per 8.8 gal).

This dosage allows continual support of the biological equilibrium. After treatment of sick fish and/or large water changes, repeat the start dosage.

Shake well before using. Keep out of reach of children.
Do not store over 30° or below 0° C.
